## "Fast Food"

Fast food is food that is quick and easy to buy or cook. Although it is very tasty, it is not healthy. It has much fat and sugar in it. So, it is not a good idea to eat fast food. You should have healthy snacks between the meals when you feel hungry. Healthy food gives you energy and makes you strong. Fruits and vegetables are healthy snacks, you can eat a lot of them. Nuts also are very good for your body. You can have nuts as a snack if you don't have an allergy. You should think before you eat anything if it is good or bad for your body.

If you want to be healthy, you should eat some of all types of food. We need to drink eight glasses of water every day. Dairy products like milk and cheese help us to have strong bones. Meat, cheese and nuts have protein in them and we need protein to have a strong body.

A lot of sugar is bad for your teeth. Examples of healthy snacks are fruit and nuts. People need to eat five to ten pieces of fresh fruit and vegetables every day. People often like fast food because <u>it</u> has lots of fat and sugar in it. Food is usually healthy and good for you when it is fresh.

# Read the following, then answer the questions:

Last month, I visited the Textile Museum in Cairo. The museum has lots of clothes from different times in history. I thought the clothes from Ancient Egypt were fantastic. In my view, the statues showing people

wearing the clothes really teach you about life in the past. My favourite thing was the Islamic area where you can see different kinds of calligraphy. I recommend looking at the clothes from other countries, too, such as Iran.

They are very interesting. If you want to take photos, it is a good idea to take a good camera, because the museum is quite dark.

## "Clothes in Ancient Egypt"

In Ancient Egypt, men and women wore similar clothes. They both wore loose, white, linen clothes with a belt. Ancient Egyptians did not wear shoes most of the time but rich people sometimes wore expensive leather sandals. Children did not usually wear many clothes until they were about six years old. Then they started to wear the same clothes as their parents. Although Ancient Egyptians' clothes were simple, they loved to wear heavy, metal jewellery. Rich people wore beautiful gold necklaces. Other people wore also jewellery but cheaper ones.

I was once at a restaurant, and my father told me to try some fish. I enjoy many types of fish, so I said, "Why not?" The fish was raw herring in onions and oil. It was cold. I took a piece of the fish with a small piece of raw onion. As it went

in my mouth, it was almost bad. Now, I had a fish that I did not like. There was another big problem that I had with it. My breath smelt horrible for the rest of the day. I would never eat it again. Although I do not like raw herring, many people do. My father eats it every Saturday at lunch. He prefers spicy olive herring. It smells so terrible that I always sit far away from it. Even though it is delicious and very healthy. It has tons of proteins. Raw herring was first made in the Netherlands.

There will be a lot of players at the 2021 Men's Handball World Championship<sup>(1)</sup>. The Championship's medical committee<sup>(2)</sup> want to make sure that all the people at the competition are able to play together safely<sup>(3)</sup>. For that reason<sup>(4)</sup>, they want only a few people to use the doors to the stadium at the same time. People who are not playing need to wear a mask. You can find a lot of these just outside the stadium and they are free<sup>(5)</sup> to use. All players should know how to get a COVID 19 test<sup>(6)</sup> every 72 hours.
